

QUALITY POLICY

In the delivery of our nearshore geotechnical services, to the offshore wind energy industry, it is the policy of GeoForce Technical Services Ltd, to afford the highest possible priority, to quality of service and customer satisfaction throughout the Company, in order to promote the continued growth and profitability of the business.

The Organisation has a Policy of promoting continual improvement and setting of Quality Objectives in line with the framework laid down within ISO 9001:2015 Standard. These objectives will address the risks and opportunities within the Organisation as determined by Top Management and also include the following:

- To carry out our business activities in a controlled, safe, professional and cost-effective manner which is fully in accordance with all specified requirements, including any statutory and regulatory requirements.
- To progressively identify and implement best practice throughout the business.
- To comply with and continually develop and improve our Management System and the service offered to customers.
- To ensure there are sufficient resources and effective processes to meet the needs of the customer, the business and other interested parties.
- To meet the requirements of our customers

Through direction and support, each employee will have a proper understanding of the importance of the Quality System function, their responsibility to contribute to its effectiveness, and its direct relevance to the success of the Organisation.

This policy document is displayed in a central work area to ensure awareness by employees, customers and other interested parties. This policy is regularly reviewed by Senior Management to ensure its continued relevance.
